In its underworld, Karst is hiding numerous wonders and stories that were through centuries engraved in limestone. A visit to Postojna Caves, the longest karst cave in Europe, is certainly the perfect starting point to get to know Karst and its wonders. However, it is not the only cave worth seeing. Karst offers an abundance of caves, and many are open to visitors.

After seeing the underworld, we will visit the home of Erazem Predjamski, the Slovenian Robin Hood. Predjama Castle will take you back to the Middle Ages and give you an idea of living in the largest cave castle in the world.

After returning to the hotel you will not be able to resist visiting one of our wine regions and walking through old villages and their narrow alleys. In the Karst region you will be greeted by Štanjel; in Vipava Valley by Vipavski križ, and in Goriška brda by Šmartno. The choice which village to visit will be difficult. Nevertheless, it would be a shame to miss the story of living on the border and not see with your own eyes the unique cohabitation of both Goricas – the Slovenian Nova Gorica and the Italian Gorizia.

Additional sightseeing options: Lipica, Slovenian Coast and Trieste with Miramare Castle

Accommodation: Nova Gorica

### Day 2: Posočje - Bled

The emerald Soča river will enchant you. Our sightseeing tour will take us upstream. The valley, a hundred years ago a witness to bloody WW1 battles, today beckons with its beauty, nature and numerous hidden corners that will leave you breathless. Following the locations of the Battle of the Isonzo will take us to gorges and valleys connected to the Soča Valley. Today, they offer plenty of walking trails, waterfalls and small rivers supplying Soča. Before ascending to the highest road pass in Slovenia, we will visit the spring of the Soča River. There, in the heart of Triglav Natural Park, we will experience the rawness of the Alps. But the day is still not over. In the afternoon hours, we will visit Bled, dubbed the Pearl of Slovenia. The view from the castle and a ride with the Pletna boat will be a perfect ending to a perfect day. And do not fear: we will not leave Bled without tasting the traditional Bled kremna rezina (cremeschnitte).

Additional sightseeing options: the Peričnik Waterfall, Bled Gorge, Bohinj, Planica

Accommodation: Kranjska Gora

### Day 3: Ljubljana - Ptuj

We will leave Gorenjska and head to Ljubljana. You will have the opportunity to see why it is also called „White Ljubljana“. After exploring Plečnik's legacy and enjoying the view offered by the Ljubljana Castle viewing tower we will enjoy a refreshing drink at the Ljubljana Embankment.

We will then head towards the East of Slovenia, Ptuj, the oldest Slovenian town with rich history and a unique Carnival character called kurent. After a sightseeing tour of this mysterious town we will visit the last destination of day 3, Maribor. Štajerska capital is home to the oldest vine in the world. Would you like to taste local wine?

Additional sightseeing options: Žalec, Rogaška Slatina, Jeruzalem

Accommodation: Šentilj

### Day 4: Pomurje/Štajerska/Koroška (optional)

From Štajerska we can either head towards Pomurje and visit the Mura river and its storks, discover the wine-growing hills of Štajerska, or embark on a journey to the underworld of Peca and see for ourselves if King Matjaž (a legendary king) is still sleeping.

# TASTES OF SLOVENIA

## Day 1: Primorska Region

Living on the border and in its vicinity had a very strong impact on people's lives. This is mirrored in culture, traditions and food. You will have the opportunity to explore traditional food and different local wines. In the quite small area located between Slovenia, Italy and Croatia no less than seven wine-growing regions meet and join, each with its own unique story of wine, people and their love for wine growing.

However, these places are not all about wine. Pamper your taste buds with excellent traditional food. And, if you wish, you can also try and prepare either one of the dishes. A day worth licking your fingertips.

Accommodation: Nova Gorica

## Day 2: Posočje - Bled

Vast meadows high up in the hills provide perfect conditions for cattle grazing. This results in high-quality milk products produced by locals in the middle of Triglav National Park. There in the embrace of the Soča Valley we will explore the process of cheese-making and enjoy the natural beauties. Fancy a walk through Tolmin Gorges? The winding paths will bring us through the Alps where we will be greeted by the Slovenian alpine pearl and two alpine lakes: Lake Bohinj with its unspoilt nature and Lake Bled with its island in the middle. We will follow the unbeaten path and enjoy the sweetness of honey. Slovenia is also known for its rich beekeeping tradition. You will have the opportunity to explore it and see for yourselves why the Carniolan honey bee produces such delicious honey. But a day in Bled would not be perfect without the traditional Bled „kremšnita“ (cremeschnitte).

Accommodation: Kranjska Gora

## Day 3: Ljubljana - Ptuj

We will discover Slovenian capital in a slightly different manner. After a walking tour through its old center we will discover various culinary specialities that Slovenia offers. So much to see, taste and feel in such a small country! The cohabitation of different cultures had a very strong influence also on regional cuisine; this will be our focus when walking through Ljubljana. In the afternoon, we will head towards Štajerska and visit Žalec and its famous beer fountain. Have you heard of it? Žalec has a fountain of beer where you can taste different types of this liquid also called „the drink from green gold“ (green gold = hops) in Slovenia.

And since Štajerska is primarily a (rich) wine region, it is necessary that we choose the right wine glass. We will therefore visit Rogaška Slatina and take a tour of the glassworks. You will see the process of glass-blowing and the production of premium crystal glass. We will then head to Maribor, to see the oldest vine in the world and its wine cellar.

Accommodation: Šentilj

## Day 4: Pomurje/Štajerska/Koroška (optional)

You can choose to either spend the day in the country exploring local food, head for one of the wine cellars or see how in the old days flour was ground in numerous mills on the Mura river.
