Točkovanje

Turnirji bodo točkovani.

Sklad za dobitke

Sestavljajo ga vse vpsnine. Provizija igralnice je izvzeta. Za vsak turnir velja, da se iz 10 % dnevnega sklada za dobitke oblikuje nov sklad – sklad za skupne zmagovalce. Preostanek (90 %) dnevnega sklada se glede na število udeležencev dnevnega turnirja razdeli po točno določenem ključu v sklepni fazi turnirja. Dobitke izplačujemo v gotovini.

Ob koncu serije turnirjev si najboljši igralci na skupni lestvici razdelijo nagrade po določenem ključu.

Sklad za skupne zmagovalce se deli na dva sklada, in sicer prejme prvih 15 igralcev na lestvici denarne nagrade (60 %), razliko (40 %) pa se v obliki pristopnin za MAIN EVENT (glavni turnir) v vrednosti 170 € razdeli uvrščeni od vključno 16. mesta dalje.

1. sklad: najboljših 15 igralcev na lestvici

Na koncu serije turnirjev se bo nagrade iz omenjenega sklada razdelilo v

2. sklad: pristopnine za MAIN EVENT (glavni turnir) v vrednosti 170 €

Preostalih 40 % nagradnega sklada pa se razdeli med igralce uvrščene od 16. mesta dalje v obliki pristopnin v vrednosti 170 € za glavni turnir (ME) marca 2020. Morebitno razliko izplačamo zadnjevrščeni igralcu v gotovini.

Assegnazione dei punti

Tutti i tornei sono soggetti a punteggio.

Montepremi

Il montepremi è composto di tutte le iscrizioni raccolte. La provvigione del casinò è esclusa. Il 10% del montepremi giornaliero di ogni torneo andrà a formare un nuovo montepremi – il montepremi per i vincitori. La differenza (90%) invece si divide tra i partecipanti del torneo giornaliero al suo termine secondo una chiave definita.

Le vincite vengono pagate in contanti.

Al termine della serie dei tornei, i premi saranno assegnati ai migliori giocatori in classifica secondo una chiave definita.

Il montepremi per i vincitori dei tornei si divide in due parti: i 15 migliori giocatori in classifica ricevono premi in denaro (60%), la differenza (40%) invece si divide tra i giocatori classificati dal 16° posto in forma di ticket del valore di 170 € per il Main Event.
